

Ken Zamariyan

Frontend & Mobile Developer | React, Next.js, React Native, Firebase

Email: kenzamariyan32@gmail.com | GitHub: github.com/callmezaa | LinkedIn: linkedin.com/in/ken-zamariyan-10b140318 | Portfolio: portfolio-amber-ten-22.vercel.app

Professional Summary

Frontend and mobile developer focused on building practical product workflows with clean interfaces, maintainable component architecture, and Firebase-backed data flows. Experienced across React, Next.js, React Native, dashboards, mobile POS workflows, and company profile systems.

Core Skills

Frontend	React, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML, CSS
Mobile	React Native, mobile UI workflows, cross-platform product screens
Backend & Data	Firebase, Firestore, REST API integration, MySQL basics
Workflow	Component architecture, responsive UI, dashboard UX, Git, Figma basics

Selected Projects

Gotani Mobile Application - Mobile & Backend Developer, 2024

Built a React Native POS and agriculture workflow application with Firebase and Firestore integration. Owned mobile UI implementation, transaction-oriented flows, and product/inventory data handling.

Gotani Admin Dashboard - Frontend Developer, 2024

Developed web administration screens for managing products, users, and transaction data. Focused on clear operational UI for non-technical admin users.

KPJMI Company Profile Website - Web Developer, 2023

Designed and implemented a public company profile website for an agriculture cooperative with a MySQL-backed content workflow.

Experience

Freelance Web & Mobile Developer | Independent | Remote | 2024 - Present

Developing web and mobile applications from requirements and UI planning through implementation and deployment handoff.

Web Developer Intern | KPJMI | Indonesia | 2023

Delivered a company profile website and supported dynamic content management requirements.

Education

S1 Teknik Informatika | Indonesia | 2020 - 2024

Coursework and practical projects covering software development, database systems, object-oriented programming, algorithms, and mobile computing.
